[Include your address and phone number for a reply]

Dear Representative/Senator [],

I believe that elections are the cornerstone of our democracy. We should be implementing reforms to make voting more accessible, more secure, more efficient, and more representative; such as Automatic Voter Registration, Vote By Mail, Ranked Choice Voting, and a full Publicly Funded Elections program.

I urge you to support these reforms, become a champion for modern elections, and do everything possible to be sure that these reforms become law.

[Please include your personal story, or share the how these laws affect you, your family and your community.]

It's past time for Hawaii to catch up with most of the rest of the country and run 21st century elections.

Sincerely,

[]
